

Automate time-intensive tasks in accounts receivable management and payment reminders with **Accounting as a Service!**

Accounting as a Service

The order processing with your customers involves many steps: from receiving the order and activating a connection, to recurring invoicing and matching of successful payments. Sometimes overdue payments need to be processed or reminded. Our offering covers **all accounts receivable management processes**, which can be modularly tailored to your needs. We can also **smoothly handle mass transactions**.

With Accounting as a Service, you can **quickly expand your business and create an efficient foundation for the network of the future**. Focus on your core business and acquire new customers. Enter a new era of economic freedom.

Features

Sub-ledger	Reconciliation of accounts	Payment reminders
General ledger	Analytics	Collection

Take advantage of the benefits

Reducing costs and unleashing potentials

With our highly automated processes, we generate **cost savings of up to 30% compared** to in-house processing.

Scalability

Easily adapt our services to the needs of your **growing business** to quickly expand.

Your company in the foreground

We strengthen your end-customer relationship with, for example, **first-class payment reminders and collection processes** in your layout and name.

Efficiency and quality

Our internal, **certified control system** ensures that you can quickly and accurately meet all audit requirements, **avoiding time-consuming audits** of accounts receivable subsidiary ledgers.
